Education

Bard College Sept 2021 – May 2025
BA in Computer Science, with a minor in Political Studies

- **Coursework:** Algorithms (Anderson), Data Structures (Anderson), Design of Programming Languages (McGrail), Discrete Mathematics (McGrail), Labor and Democracy (Inouye), Software Development (Barr)

Technical College High School Pickering Campus Sept 2019 – June 2021
Digital Media Production

Experience

Computer Science Tutor Fishkill Correctional
Bard Prison Initiative Facility, New York
Jan. 2025 - Present

Computer Science Search Committee Annandale-on-Hudson,
Bard College New York
Nov. 2024 - Dec. '24

- On a team of two other students and CS professors working together to determine which applicants applying would work best at Bard.

Research Assistant Annandale-on-Hudson,
Bard College New York
Sept. 2023 - Present

- Working on a small team led by Dr. Theresa Law, currently organizing an experiment on the role of a robotic agent in influencing collective opinion.

Office Intern Kingston, New York
New York State Assembly Office of Assembly Member Sarahana Shrestha Sept. 2023 - April '24

- I attended and led canvas sessions for community outreach on potential legislation and mainly Central Hudson related concerns
- Worked the phones in the office, both answering constituent questions/concerns and reaching out to other offices about collaboration.
- I learned lessons in organizational practices in an office setting, be it collaboration on different projects or making everyone feel welcome and comfortable.
- The tool I mainly used was Excel for data entry, most of the job was talking and as a result I feel a lot more comfortable with speaking and conveying information

Fundraising Organizer Annandale-on-Hudson,
For The Many New York
March 2023 - Aug. '23

Line Cook Tivoli, New York
The Corner Restaurant at Hotel Tivoli June 2023 - Sept. '23

Line Cook
Pizza Yard

New York, New York
June 2022 - Aug. '2022

Projects

Filesystem Organization Daemon

github.com/yungturabian/porter 

- Created a Linux utility that efficiently organizes a user's directory as a daemon process, all based upon specifications in their config file.
- Tools Used: C

Hasktan (Small Haskell)

github.com/yungturabian/hasktan 

- A small, lazy evaluation, interpreted functional programming language that derives its syntax from Haskell.
- Tools Used: Haskell, Alex, Happy

Technologies

Languages: C, Java, Lua, Perl, Haskell, SQL, JavaScript (HTML/CSS)

Tools: Valgrind, Linux, Windows

Activities

Small jobs: Lab monitor (Sept. 2024 - May. 2025), built a bridge on Bard's campus with a group I put together
